

Change the way
you see TV

on net

Now with FULL Internet access

on^{digital}

Enter the world of ONdigital

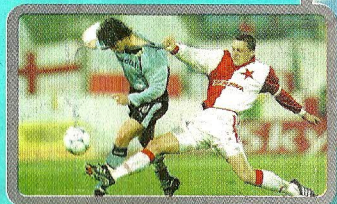

There's a new world to see – and its name is entertainment.

It's all here. Great programmes. Great movies. Great sport. And great interactive services, from games to email to the king of them all – FULL access to over 14 million websites on the Internet. All this is yours, from the comfort of your favourite armchair.

What's more you can choose the channels and services you want – ensuring you have flexibility and great customer service, from as little as £6.99 a month. Backed by Carlton and Granada, the UK's two biggest ITV companies, ONdigital is the home of great television.

Don't worry; you don't need a dish or cable. Our world's all through your existing TV, phone line and an aerial. And because it's 'plug and play', it will take hardly any time for you to set it up – and only twenty minutes to tune in your channels.

So come in. Make yourself at home.
